*"Bringing Buyer
& Seller Together"*

powered by **LUMBERMEN**ONLINE.com

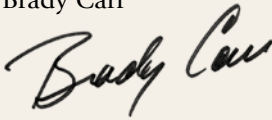

"Bringing Buyer & Seller Together!"

For many years LumbermenOnline.com has featured an interactive and keyword searchable Buyer's Guide. In 2006 LUMBERMEN'S Equipment Digest took the advice of our readers and advertisers to produce the first print edition of the Buyer's Guide, and response by subscribers and advertisers has been outstanding.

Our goal, as always, is simply to 'bring buyer and seller together' with a combination of electronic and print media creating an effective hybrid package that is not only a handy, quick and portable reference piece but also giving buyer and seller a comprehensive online resource. Lumbermen will find the latest service & supply listings, thousands of pieces of new and used equipment, as well as news, new product releases, featured articles, upcoming auctions and much more.

We hope you find the 2008 LumbermenOnline Buyer's Guide to be a helpful, informative and most of all a profitable tool!
