# the **LUMBERMEN** ONLINE buyer's guide

Numerous advertisers and subscribers have asked if we publish a buyer's guide in print. Fact is we have offered an online directory for many years that has proven to be one of the most popular sections of our website. So after receiving many of these inquiries we decided to accept this challenge. But one huge question remained. What would be the simplest, most accurate and cost effective way to amass the information required to create a truly comprehensive guide? That's why we created this brief example.

Our goal is to create a buyers guide based upon the same simple principle that has proven so profitable for our clients over the last ten years... ***Bringing Buyer & Seller Together!***

While reviewing the many different directories currently available, we found none that actually covered the forest products industry from standing timber to value added product. Nor did we find any that included the local and regional dealers and distributors of the products and services required by forest industry companies of all types and sizes on a truly North American basis. To accomplish this goal we need your input to verify that the information published is both correct and complete.

***Getting your FREE company listing is fast and easy – simply fill in the required data on pages 5 & 6. It will be the best 5 minutes you'll spend promoting your company this year!***

The contact information and categories you provide will be accessible 24 hours a day, 7 days a week, 365 days a year to the 40,000+ potential buyers who visit [LumbermenOnline.com](http://LumbermenOnline.com) each month in a key word searchable format making your company easy to find. **In addition your company will be listed AT NO CHARGE in the annual print edition coming this fall!**

Upgraded listings and additional advertising opportunities are available (see page 7 for full details) but this will NOT influence whether your company is listed or not.

**Contracted advertisers with 12 time display advertising schedules in LUMBERMEN'S Equipment Digest will automatically receive "SPECIAL" Upgrade packages.**

**TAP program** (those investing in excess of \$10,000 per year) will receive **"GOLD" Upgrade packages FREE!**

To make the **LUMBERMEN ONLINE** buyer's guide a "must keep" desk reference we plan to include helpful features such as: a calendar of events, association listings, various weights & measurements, area code & time zone tables and more. Please don't hesitate to make suggestions, this is YOUR buyer's guide! The more input we have from you the better your guide will be.

 ARSAW invented the carbide saw bit for sawmills 40 years ago. We hold U.S. patent no. 4,889,025 on our high-impact carbide saw bits. In 2006 we have improved our carbide formula to better handle hard knots and nails - once again setting the standard for all others to follow. Only ARSAW Carbide Bits have an optimum 37 degree hook cutting angle and are manufactured with an impact absorbing cushion between carbide and steel. Our carbide bits out perform and outlast other manufacturers bits. Do not settle for less, when you can have the best. Demand quality ARSAW Carbide Bits. Buy Factory Direct and SAVE.

**BUYER'S GUIDE DISPLAY AD RATES AND TERMS**

**DISTRIBUTION:** 20,000 copies of the 2007 LumbermenOnline annual Buyer's Guide will be printed and distributed by mail and at trade events.

**DEADLINE:** Ad Material and Payment MUST be received by the 15th of September, 2006 to be included.

All LumbermenOnline annual Buyer's Guide ads include full 4x color, layout and design services at no added charge (no agency discounts). "See our ad on page #" will be included with your company's alphabetical listing.

**SPECIAL LOCATIONS:** Such as the back, inside back and inside front covers, center spread and category placement are available for an up-charge of 15% of space rate. Special locations are accepted on a first reserved basis. **All special locations must be paid for and copy received by August 15th, 2006.**

**ARTWORK REQUIREMENTS:** All digital materials must be in Macintosh format. All color ads must be in CMYK. Ads can be provided on ZIP disks, CD or via e-mail. Ads should be created in QuarkXpress 4.1 or earlier for Macintosh, with images/graphics provided as TIFF or EPS files or locked PDF files. All images must be 300 dpi at the desired size of output. Lower resolution images may cause poor reproduction. All artwork, logos and screen/printer fonts used in the ad must be provided. Failure to include fonts may result in font substitution at publisher's discretion. Please provide a color press proof. Ads should be built to correct sizes. Over or undersized ads will be adjusted to fit the space ordered. Ads/copy may be sent to
