

Metal Detectors, Inc.

TWA-2000-HD Series Search Coil

HEAVY DUTY SURROUND

Not all mills are designed alike and not all mills are constructed to accommodate a metal detector where it is needed. The **TWA-2000-HD** will meet expectations in demanding installations and consistently

- **Customizable MP-4 Microcontroller**
- **Greatly Minimizes Environmental Interference**
- **Advanced Digital Filtering**
- **Superior Sensitivity**
- **Reduced Product Effect**

provide top performance in areas where other metal detectors have failed.

Hardwood mills face unique challenges when scanning dense woods such as red oak. MDI's **TWA-2000-HD** Metal Detectors operate at maximum sensitivity even when the largest hardwood logs are being processed.

Full 3-Year Warranty

50 Years of Experience

**Thousands of Metal Detectors
Worldwide**
