

Model 1300 Chop Saw

Power Through Logs With Ease.

The Pendu Model 1300 Chop Saw is precision designed, engineered and manufactured to turn raw logs into workable lengths quickly and efficiently. With its heavy-duty 60 horsepower TEFC motor and 52" diameter saw blade, the Model 1300 easily powers through logs of up to 18" in diameter. Each unit comes complete with a 20' trough style log conveyor

with a hydraulic driven 12" log chain. Also included are holding clamps that are spring loaded and console controlled and an out-feed log conveyor. If you need a hard-working chop saw, the Model 1300 is built for you.
