

# ***GS-16 GRADE RESAW SYSTEM***

Thin Kerf sawing will yield up to 30% more yield over circle sawing, the Go Fast Go-Around Grade System is a heavy duty, high capacity, and economical solution for your grade sawing operation. This system comes complete: heavy duty built low profile saw, outfeed rolls with cant tipper, heavy duty cross over chains, infeed chains with turn, variable feed speed, quick adjust blade tracking and much more.

**A BIG BANG FOR YOUR BUCK:**  
We provide a 16" x 16" x 16' capacity high production grade system for under \$200,000.
