

# 700 Series Edger

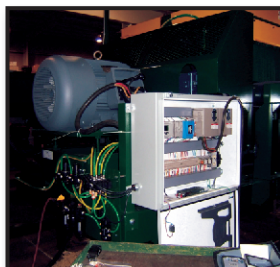

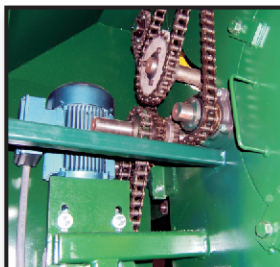

Combo Split Bay Shown

## A Variety of Options to Fit Your Needs.

The Pendu 700 Series Edger is available in almost any custom configuration and option you want to handle the widest variety of material sizes. The 700 Series machines are available single bay set-up or combo split bay set-up. All are designed with single panel access - simply lift the top cover to access saws or the side panel to access the 4" diameter arbors. Maintenance is so simple that the saw blades can be sharpened right on the machine, no need to remove them. Pendu Edgers are the most flexible, efficient edgers on the market today.
