

PENDU Model 4600 Board Stacker

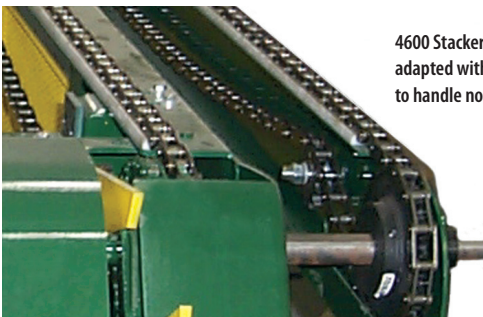

High-performance and reliability.

Pendu 4600 Stackers have proven themselves as the most reliable, high performance stackers on the market. With maximum stack rates of up to 50,000 board feet per shift, every 4600 improves productivity while reducing labor and handling costs. And each 4600 is constructed with rugged components to stand up to the most demanding environments.
