

RAWLINGS WOOD HOGS

Custom Wood Grinding Systems

The original rotary hog was invented and developed by Rawlings Manufacturing Inc. in 1977. Since then our family owned and operated company has designed, manufactured and marketed several product lines.

Rawlings Wood Hogs are available in stationary, portable and skid mounted systems. We offer individual equipment delivery from simple stand-alone vertical and horizontal hogs to custom wood waste recovery systems.

As a proven leader in size reduction equipment we're assisting our customers in utilizing renewable resources while reducing and recycling a wide variety of wood waste into marketable products.

WOOD HOGS

Customer Testimonials

Rawlings PXZ Vertical & HZX Horizontal Super Hi-Inertia Hogs are the most productive and efficient hogs available and have proven track records in some of the toughest applications that exist.

- Biomass Recovery
- Alternative Fuels
- Biomass and Co-Generation
- Sawmill
- Pulp, Paper, and Pellet Plants
- Compost and Mulch Operations
- Recycling Facilities
- Waste To Energy Plants

When the decision was made to upgrade our hog, we considered several options but had heard that the Rawlings hog had superior result when compared to other hogs once considered. The decision was easy as soon as we evaluated our options. Since the upgrade, we have realized many returns that we had hoped for, specifically, to keep the hog running a full shift without a problematic shut down. That factor alone has increased our uptime. Prior to the upgrade, the barker needed to run on lower pressures to reduce chances of plugging the hog. To summarize, the return on investment that we expected has been greatly increased and I would not hesitate to recommend to anyone to invest in a Rawlings Hog system.

Western Forest Products,
British Columbia

"Compare this to other hogs we have had were maintained at least weekly and you will see there is no comparison at all. This Rawlings machine is easier to work on, get into, and inspect than any other hog we have had. I would have to say that overall, this is a very fine machine. I have only found one drawback with this machine. You sometimes forget to check it out regularly because you never have any problems with it."
