

Blower F42 / F46

Frontline's blowers use heavy-duty steel construction for long life in handling sawdust, chips and shavings. Models 42 and 42M (6 blade) and models 26 and 26M (4-blade) are built with 3/8" steel for high volume and long life. Both the 42M and 26M have fabricated sloped sides for easy mounting of motors. Model 26 and 42 are designed for use where electric motors are chosen not to be used. Model 42 and 42M use 1/4" scroll sheet and side plates. Model 26 and 26M use 1/4" scroll sheet and 1/8" steel side plates and has a longer transition.

SPECIFICATIONS	26"	42"
Overall Height With Adapter	40"	56"
Inlet Diameter	10"	18"
Outlet Diameter	8"	12"
Horse Power Range	7.5-20 HP	30-50 HP
Fan Blade Diameter	20"	30"
Fan Blades	4	6
Shaft	1 11/16"	2 3/16"
