LOG SPLITTERS

TIMBERWOLF

FIREWOOD PROCESSING EQUIPMENT

607-307-4029

www.TimberwolfEquip.com

- ▲ Professional-grade log splitters at entry-level prices
- ▲ The same Timberwolf quality in a smaller package, perfect for the home owner and new firewood entrepreneur
- ▲ Integrated step wedge to split large blocks in half with ease
- ▲ Upgrade with a slide-on 4-way wedge to create 4 uniform pieces of firewood
- ▲ Start splitting \$150 worth of quality firewood per hour with a purchase as low as \$3,000

FEATURES

Step Wedge

- Innovative, built-in wedge
- ‘Step’ at bottom of 12” tall by 1” thick wedge allows log to crack before making full contact with the wedge, resulting in cleaner splits

Table Grate

- 32” long by 34” wide
- Acts as a catch pan for logs, sifting out dirt and other fine material
- Easily slides into the end of the I-beam

Log Lift

- Functions on the principle of leverage
- Load capacity of 250 lbs
- Allows for single-person operation without a drop in productivity

4-Way Wedge

- Easily added by sliding over the integrated step wedge
- No further assembly or additional tools required
- Produces 4” or 6” material, depending on orientation

Table Grate, Manual Log Lift, and 4-Way Wedge are available as Add-On Options.
